

White material datasheet

Overview

Our most popular plastic material. It's white, glossy with a clear over-laminate that protects the printed layer giving it brilliant durability.

It has a medium-strength adhesive, suitable for a wide range of applications. Designed to be used for up to 3 years outdoors.

Material highlights

- Waterproof
- UV resistant
- Medium strength adhesive
- Gloss finish
- Suitable for indoor & outdoor
- Durable
- Resistant to sunlight, scratches, water, oils & chemicals
- Write on it with a sharpie
- Tear-proof
- Freezer safe

Typical uses

This is our most popular material that extremely versatile, suitable for many applications, such as:

- Drinks glass stickers
- Food packaging labelling
- Make up packaging
- Vape product packaging
- Phone and laptop branding
- Car bumper stickers
- Branding glass or plastic bottles
- Company signage
- General branding stickers
- Bike frame stickers
- Logo stickers of all uses
- Food packaging labelling

Material construction

The image below shows a cross-section of this material, along with details of each part of the material:

- Clear gloss, 20-micron polypropylene laminate
- 6-10 micron of ink
- White gloss, polypropylene film for printing
- Permanent, pressure sensitive acrylic adhesive
- 140 GSM backing paper

Technical data

Adhesive:	Permanent, clear, solvent-based, pressure-sensitive, 18GSM thick
Print vinyl:	White, 50-micron polypropylene (PP)
Over-laminate:	Clear gloss, 20-micron polypropylene (PP)
Temp. range:	-20C to +80C
Colour:	White
Finish:	Gloss
Durability:	3 years
Adhesive strength:	Medium tack, peel-adhesion of 20N/25mm
